36% come directly from their undergraduate years, 15% took a gap year, and 48% graduated two years ago or more. 8 incoming students have already completed advanced degrees. Many have authored published research. Others have worked as EMTs and CNAs, and with AmeriCorps, the Peace Corps, the National Institutes of Health, and clinics and community outreach programs in the United States and abroad. All have demonstrated a deep commitment to medicine and to the characteristics Brown University values: humanism, compassion, and the intention to lead lives of purpose and integrity.
