Student Groups | Electives | Scholarly Concentrations

Level 3: Scholarly Concentrations

- Rigorous, independent, cross-disciplinary scholarship working closely with a faculty mentor
- 13 concentrations to choose from
- Scholarly work across Years 1 – 4 of medical school
- Submission of a scholarly project; opportunity to publish and/or present at national conferences
- Certificate of completion; discussed in dean's letter

Level 2: Preclerkship Electives

- 40-50 electives running per semester
- Open to M1 & M2 med students
- Taught by faculty, or designed, implemented, and led by students along with a faculty adviser
- Students provided with a certificate of completion at end of elective

Level 1: Student Groups

*learn, serve, network, lead, create, relax,
+ support each other*

- 100+ available; vary year to year based on interest
- Advocacy/service: community engagement
- Medical associations: represent AMS students in national organizations
- Specialty interest: focus on medical specialties
- Student life: enhance life outside of medical school
